I live directly behind Max Patch and have done so for 15 years. I loved and cherished my mountain. I am embarrassed and do NOT recommend people go there. As a train ambassador, I go to MP and talk with people. We have seen up to 250 cars there one nice summer evening. Let's say there are 2 people to a car so at a minimum there are 500 people looking for bathrooms. How disgusting. Would you recommend sending your friends there for a day trip or over night trip? No!!!

I regularly clean up after people who do NOT understand the principles of Leave No Trace. And I am willing to do that provided the USFS does their part.

There MUST be bathrooms added and govt support to save our treasure. Please do NOT turn your car k on our needs!! Why is MP NOT on your bathroom list?

I see many projects in NC on this list that rehab or build new toilets and parking on much lesser used sites. If the answer is these projects were previously defined, then I blame the Forest Service for not defining a much needed project. This project is sorely needed and much higher priority than most if not all the other toilet/parking projects on this list.

I ask you to strongly consider adding Max Patch projects to this list.
