Comments:

We have lived in Madison County for over twenty years. One of the special places where we hike, bird watch, and sightsee, is Max Patch. Over the years, we have seen Max Patch get busier and busier. Sadly we've seen an increase in trash, human waste, and shortcut trails. The parking area is no longer large enough to accommodate all the cars coming to visit. In short, Max Patch is being loved to DEATH.

We hope that Max Patch will be a priority for maintenance/infrastructure funds. With the number of people now enjoying Max Patch, the mountain needs a bathroom (a "SST" vault toilet would be perfect). The parking needs expansion and better signage to safely squeeze in more vehicles.

We appreciate that many people have discovered the beauty of Max Patch. But to preserve that beauty, Max Patch needs help. Please include Max Patch on the project list.

Thank you.
