Comments:

I live in North Carolina and volunteer as a trail maintainer for the Carolina Mountain Club. In that capacity, and as an avid hiker, I have personally witnessed the degradation of one of the most popular hiking and camping destinations in our area -Max Patch. This area suffers from lack of parking, lack of toilet facilities, lack of sustainable campsites and other issues from extremely heavy use. Carolina Mountain Club volunteers work at Max Patch regularly but struggle to keep up with the damage that occurs to their work from overuse and lack of adequate facilities.

I ask you to consider adding Max Patch projects to this list so its beauty can be preserved.

Sincerely,

John Turley
