Comments:

Clearwater Lake Recreation Area in Paisley Florida is a small Campground is continually overlooked when it comes to restoration of the campsites. None of which have power for those of us that have handicaps requiring medical equipment and generators have to be turned off by 10pm. Makes it impossible to enjoy when medical equipment is involved. many of the parking areas have broken pavement and the runoff is in dire need of attention. Trees need trimming because of dead wood over tent areas. Staff has hands tied.
