Comments:

I am a trail maintainer with the Carolina Mountain Club, helping to maintain trails in Western North Carolina and I am also on the board of the Friends of the Mountains to Sea Trail. The greatest need I have seen for Forest Service funding across NC is for Max Patch to receive restroom facilities and upgraded parking facilities. What exists now is deplorable and is causing a safety issue as well as destruction of the infrastructure and natural resources. This has been well publicized and the neglect by the Forest Service has become glaring.
