I am writing to express support for the 'REC-080302-22-01 Aska Mountain Bike Trail System Improvements'
One of the needs that has been consistently expressed is a need for beginner level bike and hike trails on USFS land. Supporting this project would support that need. In addition, Aska/Blue Ridge ecotourism demands surpass the current amount of available trail and parking in the region. There are eager volunteers, fundraisers, and local partners for this project, so I hope to see it given funding through the Great Outdoors Act
