FAO-081205-22-FM Tibwin House Structural Repairs

The Tibwin House, Stable and Allee were recorded and evaluated in the 1992 Charleston County Survey of Historic Properties as meeting the criteria for listing in the National Register of Historic Places. It is our understanding that the Forest Service is planning to officially nominate the property for listing in the National Register within the next year.

We support funding for a feasibility study to assess the structural condition of the house as the logical first step in undertaking a rehabilitation project.

The planned rehabilitation would provide the fire program with office space, and publicly accessible exhibit and meeting space in the building in partnership with the local community.
