First name: Bill

Last name: Strachan

Organization: Red River Gorge Climbers' Coalition

Title: Executive Director Emeritus

Comments:

The Red River Gorge Climbers' Coalition (RRGCC) has maintained an active relationship with the Daniel Boone National Forest via Memoranda of Understanding (MOU) since 2000. Our current MOU (FS Agreement No. 19-MU-11080200-341) was signed on December 12, 2019. Our organization encourages that fullest amount of support possible be provided to the Red River Gorge projects COR-080211-22-11 Red River Gorge Visitor Impact Mitigations and 40GAOA REC-080211-22-XX Red River Gorge Master Planning. The RRGCC was an active participant in the Red River Gorge Limits of Acceptable Change (LAC) process. We believe that the continued implementation of the LAC outcome is crucial to maintaining and expanding rock climbing opportunities in Red River Gorge while minimizing potential impacts from this recreational activity.
