Comments:

I see that, even with all of the issues this year, that Max Patch isn't on the list for anything. If more agents can't be assigned to the area, please consider at least making it more manageable and safe for those of us who live in the area. It's a beautiful area, and though I'd rather people NOT visit, I understand why they want to. We just do not welcome their trash. So, addition parking that doesn't block the road, composting toilets, and fines for campers would be a great start. Otherwise, it won't be worth visiting soon enough.

Thank you for your consideration of a too popular natural attraction.
