Comments:

It is with a sense of urgency I request funding to benefit Max Patch Bald, part of the AT which runs through NC. As an avid hiker, I am distressed in the unsanitary and disgusting condition this popular spot is most often found now. There is desperate need of toilet facilities and adequate parking. Please help return this wonderful spot to an enjoyable and beautiful respite. As it is now, it is shameful and hazardous. funding for proper facilities will be a start on a path to its natural state.
