First name: Blythe

Last name: Stamm

Organization:

Title:

Comments:

This is a terrible idea. It will add noise, commercialism, vandalism, and litter right in the middle of an already fragile and largely unprotected wilderness area. The din and blight of development should be left in the city. The Sandia Mountains should be valued and treasured for their lack of development and amenities, not viewed as a blank canvas to add them. PLEASE don't let them do this to our mountains!!!!
