This is an outrage! If they want another roller coaster go build it on there home site lease and stop abusing native Americans just because you guys can and have been doing it forever. We are the target audience for getting kicked off our own homeland or being asked to downsize for no reason. Why don't we do that for the mount Rushmore? Battle of Gettysburg? Lets put roller coasters there instead. The sad thing is, none of this is being televised on natational news. Don't build the roller coaster, they want it so bad, ask them to move and well put it where there houses are. You have a choice here to simply say "no, the native Americans have just as much say so about there own homeland the way we can say no trespassing." Just please, stop using native americans for there land. Just stop. Please.
