Dear Sir/Ma'am,

I heard about the coaster project this morning on the radio and am in full support of this proposal. My wife and I have taken everyone who has come to visit up the Tram and would enjoy exposing them to this adventure. We would also love to share the experience with our children and grandchildren.

This would be an exciting use of the property and would be leveraged year round. Considerations for tourism, jobs, and the like is favored. I do not believe there would be much in the way of an environmental impact to the designated space.

My wife and I live in Placitas and give this project two thumbs up!

Please feel free to contact me.
