

Water

#1

- ↑ importance on water quality for drinking
- Garbage in creeks/water concern
- Farmers concerned about Federal agency enacting further regulations on private lands
- ↑ concern about highway maintenance use of herbicides → ↑ amounts
→ As well as power line mtn.
- Limited mobility access needed for boat ramps
→ No Fishing access for limited mobility.

· Boat ramps need slope work -
maintenance / parking area improvements
→ elevation changes in water
Silt in boat ramps

· Coyote concerns

#1 Material

Water

#2

- Water quality - especially fecal matter
- Concerned about water temperature
lion's cave, knocking cave areas
- Erosion - sedimentation
- Trash in streams/lakes
 - Tar Kiln Area → through out
- ↑ demand for white oak on private land harvest is increasing sediment (state bmps not being adhered to)

Water

#3

- Drinking water quality.
- Work toward conditions for ↑ quality water.
- Stream restoration to improve H₂O quality.

· Need annual cleanup

- Straight pipes in watershed.
- Past mining impact concerns. Are minerals ~~the~~ operations being monitored?
